

Emmbrook Infant School Pupil Premium Strategy Statement 2017-18

At Emmbrook Infant School we have a clear philosophy that our children will achieve personally, socially and academically to become life-long learners. So not only do we support the academic learning but we also provide our children with opportunities they may not always have access to. We fund visits to places of interest to give our children a range of experiences. To support their academic learning, early support strategies for those who need additional help with reading, writing or mathematics have been funded through the Pupil Premium Grant. We also use the PPG grant to ensure our children make at least good progress from their starting points, in literacy and mathematics, with classroom support if appropriate.

Measuring Impact:

We will use both internal and external data to measure the impact of the Pupil Premium Grant on our pupils' learning. We will review the effectiveness of the interventions we are using and adapt them to meet need when and where required.

At the end of the school year we will publish our data focusing not only on the attainment of our pupils in reading, writing and maths, but also on how effective we have been in closing the gap between our highest and lowest attainers. We believe that the enrichment activities we provide through the PPG will help our children become increasingly confident in all aspects of their learning and development. Over the last 2 years we have significantly closed the gap for our Pupil Premium pupils who now outperform all children nationally.

For the academic year 2017-18 staff training will focus on deeper learning and we will use this to ensure our most able PPG pupils make rapid progress and achieve the highest outcomes.

Use of the Pupil Premium Grant is fluid as pupil needs change throughout the year. The numbers indicated below are indicative and as such are subject to change.
